Hi Valerie – interest huh? I've been working tons of overtime on this case and I'm sitting in a hotel in Portland right now! Neat science behind it and interesting (but hard and sad) situation for us to address. You guys have a color glass plant in your region too. I talked to Dick and Beverly last week.

Subject: From Greenwire -- AIR POLLUTION: Researchers found Portland, Ore., hot spots by accident

This Greenwire story was sent to you by: nowell.valerie@epa.gov

Personal message: I thought you'd find this story - about using moss to pinpoint sources of air pollution - interesting.
